"So Many Plants, So Little Time" by You!!!

We had a great time last year, and we plan to do it again this year, a full meeting of plant display and discussion. For the colder parts of the Bay Area, January is a difficult month. Frost and low light can be hard on our gardens. Even the areas around the Bay and the Coast can have bad experiences. So if you have a special plant or a few that you would like to discuss with the group come to our January meeting and bring it along. It could be a cutting or a beautifully grown specimen, or something you are having trouble growing. This is a meeting for everyone to learn.

"The Orchids of Sichuan, China" by **Ron Parsons**

Ron Parsons joined a botanical tour of northwest Sichuan with the late slipper orchid expert Holger Perner and his wife Wenqing. The tour focused on seeing some of the native *Cypripedium* species (the circumpolar genus of mostly temperate slipper orchids), and there were also numerous other orchids as well as lovely *Primula*, *Paeonia*, *Gentiana*, *Deutzia*, *Arisaema*, *Meconopsis*. This talk features not just the beautiful flowers of the region but the fantastic scenery.

Monthly Plant Drawing News

Each month various nurseries and individual members donate plants for the plant drawing. Perhaps you sowed a few too many seeds, or rooted too many cuttings, or you need to divide some plants that have gotten too big for your garden. Here is your opportunity to find those plants some good homes

Monthly Plant Display and Discussion

While January's meeting will be different, each month there is a lively discussion about plants brought in by our members. It may be a well grown specimen or an unusual discovery, or a plant that has attributes that are not known by the main stream. If you are interested in participating, bring in a plant to show to the group. You can also donate this plant afterwards to the plant drawing.
